

12.4. BCA Project Detail View - Before Assessment

Note: This BCA project details view is available after the project has been created and before the completion of the assessment.

Note: Currently, the asset status is set to "Not Started." Once the assessor completes the assessment, the asset status will be updated to "Completed.". After all the assets complete the assessment the project status also changed to "completed".

In the project 'details view page' right corner user can view the "option icon" having following options.

- 1. Edit Project Details:** To edit/update project details.
- 2. Add New Asset:** To add the asset(s) into this project, when you click on "add new asset" option following screen will be display.
