

12.5. BCA Project Workflow

Step1: Project created by the user (admin).

Step2: Selected assessor will notify in asseto mobile app and can view the project location and details, view assets and can view the project details, view assets and can view the project details.

Note: Only one Assessor will accept the project by clicking the "Accept" button.

Step3: Accepted assessor will then visit the specified location, install the mobile app and click on “start work” option, inspect the condition of the assets and components, and upload photos and notes to submit the assessment via the mobile app.
