

4. Applications

Applications:

The application page displays all the applications created by different users in an dynamic table with the required fields and values. Below the additional details of Applications dashboard:

The screenshot shows the 'Applications' dashboard. At the top, there's a breadcrumb 'Visitor Pass < Applications'. Below it, the title 'Applications' is followed by a status filter dropdown (1). To the right, there are two buttons: 'All Applications' (2) and 'My Applications' (3). Below these are five status summary cards: 'Approved' (138), 'Pending Submission' (229), 'Pending Approval' (190), 'Rejected' (15), and 'Terminated' (6). Below the cards are two filter dropdowns: 'All Visit Purpose' (4) and 'All Status' (5). To the right of these is a search bar (6). Below the filters is a table (7) with columns: Approved Person, Serial No., Purpose, Location, Visit Date, Requested On, and Status. The table contains five rows of application data.

Approved Person	Serial No.	Purpose	Location	Visit Date	Requested On	Status
Sathish Ravi NS	WP/20240724486436	Discussion	MUMBAI, AUTOMATED_BUILDING_9,	24 Jul 2024	24 Jul 2024, 4:20PM	Pending Approval
Amir khan robo	WP/20240717723458	Party	KLCC, Tower 1	17 Jul 2024	17 Jul 2024, 2:25PM	Approved
